- Students should register at the courses' e-address given above and by sending an e-mail to the lecturer. In case of Innovation students should send an e-mail to Ana Cordeiro, no later than the **8th of October**.
- Students should register to either ***Métodos de Investigação em Engenharia*** or ***Research Methods in Engineering***

Métodos de Investigação em Engenharia and ***Research Methods in Engineering*** address the same subject, have similar learning outcomes and demand similar effort; one is taught in Portuguese and the other in English;

Foreign students from non-Portuguese speaking countries have preference on choosing the English taught course - ***Research Methods in Engineering***.
